

Discontinuation of Ensenso N10 & N20 models

Affected Products and Changes:	All Ensenso N10 & N20 models (article listing appended)
Type of Product Change:	<input checked="" type="checkbox"/> Discontinued Product
Document Version:	1.1
Document Release Date:	2021-05-27
End of Sales Date	2021-10-01
Last Shipment Date	2022-02-01
End of Support Date	2024-02-01

Reasons and overview of the product discontinuation

The Ensenso N10 & N20 models are discontinued due to these changes:

- The N10 imaging sensors are discontinued by the sensor supplier.
- The N20 camera electronics is discontinued and the N20 housing is incompatible with the revised camera electronics (available in the N3x and N4x models).

Recommended actions for customers

- IDS recommends customers to check demands and place orders as early as possible as remaining stocks are cleared in chronological order.
- We are able to recommend replacement models – please contact IDS sales.
- E.g., replacing the Ensenso N20, the N30 models provide equivalent GigE data interface, optical configurations, resolution, and improved performance in an IP65/67 housing with similar dimensions.
