Title: Discontinuation of uEye cameras based on ON Semiconductor sensors

MT9M131C12STC

Affected Product:	IDS uEye cameras <ul style="list-style-type: none">• UI-164xLE and UI-164xSE (USB2)• UI-564xSE and UI-564xRE (GigE)
Document Version:	1.0
Release date:	February 26 th 2021

Reasons and Description of the Product Discontinuation

The supplier of the imaging sensors build into the affected IDS cameras, ON Semiconductor, has discontinued with immediate effect the imaging sensor MT9M131C12STC (colour). Therefore IDS has to announce the discontinuation of the cameras models listed below.

IDS has secured a larger quantity of sensors timely, however, further purchasing is not possible as ON Semiconductor has already stopped the production of the sensors.

Due to this forced discontinuation the respective cameras can only be sold while stock last. Incoming customer orders are executed in chronological order, first-come, first-serve. Potentially not all orders can be served up to the End of Sale date mentioned below

Recommended action for customers

IDS recommends its customers to check demands and place orders as early as possible as stocks are cleared in chronological order. We are also able to recommend alternative replacement models. For any question regarding last time orders or successor models, please contact our sales team.

Important Dates

End of Sale	Last Shipment Date	End of Support
31 th August 2021	31 th January 2022	31 th January 2025

Affected Cameras

UI-1640LE

UI-1641LE

UI-1642LE

UI-1640SE

UI-5640SE
