Title: Discontinuation of GigE uEye LE Rev.1 cameras

Affected Product:	GigE uEye LE Rev.1 cameras (detailed list of models in document) <ul style="list-style-type: none">• UI-5xxxLE
Document Version:	1.0
Release date:	July 27 th 2022

Reasons and Description of the Product Discontinuation

IDS has launched the GigE uEye LE Rev.1.2 camera generation with alternative semiconductor technology. IDS engineers managed to develop new camera hardware and software like-for-like to our present and proven GigE uEye LE Rev.1 cameras. The camera functionality and technical data keeps unchanged. However, due to the changes a software update to IDS Software Suite version 4.96.1 is required.

The predecessor cameras (we refer to them as Rev.1) are heavily affected by the global electronic component shortage. The delivery situation of these GigE uEye LE Rev.1 cameras is not safe. We expect that we will soon no longer be able to deliver these cameras. The camera family redesign and launch of the uEye LE GigE Rev.1.2 as well as the discontinuation of uEye GigE LE Rev.1 reflects the situation of the global electronic component shortage. For returning to a stable camera delivery situation IDS saw the necessity of designing a new alternative camera platform and to discontinue unavailable cameras. A complete list of the new models you can find [here>>](#)

Recommended action for customers

IDS recommends all customers of the models listed below to upgrade to cameras of the successor series of revision 1.2 as soon as possible. An update to IDS Software Suite version 4.96.1 is required to operate the cameras in your current application. You can download it from our website: <https://en.ids-imaging.com/downloads.html>

Important Dates

IDS is aware of the short term end of sales and last time shipment dates. Due to very restricted availability we are not be able to ship beyond August 31st 2022, maybe shorter. Orders will be executed first come first serve.

End of Sale	Last Shipment Date	End of Support
5 th August 2022	31 th August 2022	31 th August 2025

Affected Cameras

All cameras from the GigE uEye LE Rev.1 series.

UI-5xxxLE Rev.1

(Illustration may differ from the original.)

Note:

The part numbers remain the same, except the first digit switches from 0 to 1. Example:

Part number Rev.1 camera	Part number of matching Rev.1.2 camera
AB0xxxxx	AB1xxxxx
