Title: Discontinuation of certain uEye cameras with AR1820 sensors

| | |
|--------------------------|---|
| Affected Product: | IDS uEye cameras (detailed list of models in document) <ul style="list-style-type: none">• Models with match code UI-359x |
| Document Version: | 1.01 |
| Release date: | September 22 th 2022 |

Reasons and Description of the Product Discontinuation

The supplier of the imaging sensors built into the affected IDS cameras, onsemi, decided to discontinue the production of the imaging sensors AR1820HSSC00SHEA0-DP1 and AR1820HSSC12SHEA0-DR1 by end of this year. For this reason, IDS has to announce the discontinuation of the camera models listed below.

Last time buy orders for the above mentioned onsemi AR1820 sensors can be placed and corresponding cameras can be built. Building and shipping these cameras is governed by the global component shortage. The confirmation of orders is pending due to the components shortage situation.

Recommended action for customers

IDS recommends that all customers of the models listed below promptly place their last time buy order with an appropriate volume covering the life span of the related customer projects or devices.

IDS is eager to provide an alternative sensor and is already working on appropriate alternative camera models.

For any question regarding last time orders or successor models, please contact our sales team.
